

Uniform Green Machine!

As global conditions make uniform increasingly hard to get hold of, as well as increased environmental sustainability and financial concerns, the Executive Committee has decided to introduce a Uniform Green Machine to help alleviate these issues and enable more young people to have uniform when they actually need it! This will hopefully reduce waste and waiting times.

We are now gratefully welcoming cleaned uniforms which are no longer needed – either due to moving Section, growing out of it, or having moved on from the Group. These should be donated to a leader at a Section meeting and will be held centrally at the hut. This does not need to just include Beaver/Cub jumpers or Scout shirts (many understandably wish to keep these with all their badges on!) but we would also greatly welcome Beaver/Cub t-shirts, unnamed Scout t-shirts, Scout trousers or Scout belts as these are often very difficult to obtain / afford. We will not be accepting donations of neckers/woggles.

Should you wish to utilise uniform from our stocks, you can ask your Section Leader or Group Scout Leader (Jack), who will be very happy to assist and let you try on any uniform we hold. If you wish to use this resource confidentially, whether for hardship reasons or otherwise, you are very welcome to do this through the channels detailed in the Group Hardship Policy. We will be able to discreetly advise on sizes in stock and arrange pick up / delivery of any items required.
